NOTIFICATION OF TRANSMITTAL OF THE INTERNATIONAL PRELIMINARY EXAMINATION REPORT

(PCT Rule 71.1)

Date of mailing

(day/month/year)

31.08.2004

Applicant's or agent's file reference

18981/814

IMPORTANT NOTIFICATION

International application No.

PCT/IB 02/02292

International filing date (day/month/year) 20.06.2002

Priority date (day/month/year)

20.06.2002

Applicant

OTIS ELEVATOR COMPANY et al.

- 1. The applicant is hereby notified that this International Preliminary Examining Authority transmits herewith the international preliminary examination report and its annexes, if any, established on the international application.
- A copy of the report and its annexes, if any, is being transmitted to the International Bureau for communication to all the elected Offices.
- 3. Where required by any of the elected Offices, the International Bureau will prepare an English translation of the report (but not of any annexes) and will transmit such translation to those Offices.

4. REMINDER

The applicant must enter the national phase before each elected Office by performing certain acts (filing translations and paying national fees) within 30 months from the priority date (or later in some Offices) (Article 39(1)) (see also the reminder sent by the International Bureau with Form PCT/IB/301).

Where a translation of the international application must be furnished to an elected Office, that translation must contain a translation of any annexes to the international preliminary examination report. It is the applicant's responsibility to prepare and furnish such translation directly to each elected Office concerned.

For further details on the applicable time limits and requirements of the elected Offices, see Volume II of the PCT Applicant's Guide.

The applicant's attention is drawn to Article 33(5), which provides that the criteria of novelty, inventive step and industrial applicability described in Article 33(2) to (4) merely serve the purposes of international preliminary examination and that "any Contracting State may apply additional or different criteria for the purposes of deciding whether, in that State, the claimed inventions is patentable or not" (see also Article 27(5)). Such additional criteria may relate, for example, to exemptions from patentability, requirements for enabling disclosure, clarity and support for the claims.

5. 🗆	This report has been established as if (some of) the amendments had not been made, since they have been considered to go beyond the disclosure as filed (Rule 70.2(c)).			
	(Any replacement sheet containing such amendments must be referred to under item 1 and annexed to this report.)			

- 6. Additional observations, if necessary:
- V. Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement
- 1. Statement

Novelty (N)	 Claims Claims	1-6
Inventive step (IS)	 Claims Claims	1-6
Industrial applicability (IA)	 Claims Claims	1-6

2. Citations and explanations

see separate sheet

Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement

The present application meets the requirements of Article 33(2) and (3) PCT, because the subject-matter of claims 1-6 is novel and involves and inventive step.

Closest prior art: Document D1=EP-A-0985628 discloses a safety top balustrade for elevator with a fixed structure comprising a plurality of vertical uprights fixed near the edge of the car roof and horizontal tubular guard rails fixed at the uprights. A passage is formed to the elevator controller when a bar is folded down (fig.5).

Difference: A mobile structure with horizontal telescopic bars which are telescopically mounted inside the tubular guard rails are defined in the invention to open a passage to the elevator controller.

Objective problem: How to ameliorate the structure to define an opening to the elevator controller.

Solution: The concept of the invention lies in the telescopic bars, which enter completely into the horizontal guard rails, thereby offering a free passage to the elevator operator.

NOTE: "A controller (14)" has to be defined in line 2 claim 1.
